

Wi-Fi & the bits you'll need

NETWORK *[network name]*

PASSWORD *[password]*

Mobile signal is dreadful up here (the stone walls are too thick!), and the Wi-Fi can be unreliable too. It is happiest in the communal space, or just outside it, so do head there if you need to get online, and be gentle with it of an evening :)

Check-out by *[10am]*, no great rush in the morning

Anything at all, just give us a shout
